

WHY EDUFLEX?

Eduflex is elegant in its operational concept of a 'Service Oriented Approach'. The distributed and synchronized data provides the source of information needed for student, parent, staff and management at a much higher speed. It is designed to speed up various tasks across the institution system and offers modules from student robust features that benefit educators, students, and staff. An ERP solution that can be accessed anytime, anywhere, Eduflex automates the entire student life-cycle — integrating admissions, registration, student billing, financial aid, student services and more into a single system that even includes built-in, self-service portals, all operating on a single, secure shared database. Eduflex integrates all departments, faculty, students, alumni and other stakeholders. It enables everyone to benefit from readily available data shared in real-time, boosting efficiency and reducing the number of systems an institution maintains, all while also eliminating redundant data.

The only educational **ERP** you need
for totally automating your entire campus.

Easiest ERP to Learn and Use:

Learning to use Eduflex is just as easy as learning an Internet browser. Eduflex uses the familiar point-and-click interface of today's Web browsers to bring your data to your desktop. Navigation is clear and consistent, enabling all users to move throughout the system without retraining.

Empowers IT department:

Eduflex runs on standard hardware and require no client maintenance, enabling your technology staff to spend time building the institution's strategic capabilities, not troubleshooting desktop client software. Edflex minimizes network traffic because by design data and data processing reside on the server. This architecture enables rapid deployment of system updates; easy hardware upgrades and better infrastructure use that frees up resources.

Works across Platforms:

Designed as a browser- independent resource for communication and interaction, Edflex enable students, faculty, administrators and alumni to access live, up-to-date information and services 24/7.

Secure Data:

Building a database is hard work. Edflex secures it. Edflex employs full data audit trails and role-based security, allowing users to manage access with a high degree of granularity — by record, by course, by student and by object. Additionally, Edflex uses secure socket layer — SSL — for communications and encryption.

Live support:

A 24 / 7 dedicated support team assists customers with their technical questions or issues.

Benefits to

Management:

- Single Point School Management
- Zero redundancy in managing the institutions records
- Effective communication between teachers, parents and students
